DETAILED ACTION

Allowable Subject Matter

1. Claims 1-6 are allowed.
2. The following is an examiner's statement of reasons for allowance: In light of the argument made in the Appeal Brief, a new interpretation was given to the limitation of a terminal bridge. The terminal bridge must at least prevent propagation of error up into the data transmission bus by preventing the transmission of data between a given one of the multiple I/O adapters and the data transmission bus. In view of this interpretation, the terminal bridge in combination with the other limitations of the independent claim are not found anywhere in the prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
